

Safety Policy

Top management undertakes to pursue the objective of improving the Health and Safety of the workers, as an integral part of its activities and as a strategic commitment to the organization's general goals, by making available human, economic and technical resources.

This document is available and communicated to interested parties to all persons working under the control of the organization and it ensures that:

1. the aspects related to Health and Safety are considered as essential contents
2. the considered aspects are appropriate to the organization's nature and risks
3. all persons working under the control of the organization are informed and made aware of individual OH&S obligations
4. the whole company structure (managers, responsible people, designers, maintenance operators, workers etc.) according to their responsibilities and skills, participate in the achievement of the assigned Health and Safety objectives, so that:
 - installation design and equipment, workplaces, operating methods and organizational aspects are performed in such a way to safeguard the workers' Health, the company's goods, third parties and the community within which the company operates
 - the information about company hazards is distributed to all employees working under the control of the organization; the training of the employees is provided and updated with specific reference to the task to be carried out
 - actions required during work activities are dealt with quickly, effectively and diligently
 - cooperation is promoted between company resources and the external authorities in charge
 - applicable legal requirements and other requirements to which the subscribes company are observed
 - one's own activities are managed with the purpose to prevent injury and ill health. The design, operation and maintenance activities will have this objective, including the activities for cleaning workplaces, equipment and installations.
